

Lomandra longifolia 'LM300'

# Tanika®

**AVAILABLE TO LICENCED OZBREED  
GROWERS ONLY**

Lomandra Tanika is one of the toughest, most reliable and versatile landscape plants in the market. It's been performing in tough landscapes across Australia for over a decade, and continues to out-do its competitors.

Tanika is an evergreen, low maintenance, non-seeding plant for landscape professionals. It's one of the most drought tough Lomandras, and is excellent for dry slopes and dry shade. With modern architectural foliage, Tanika looks great in roadside plantings and gardens, and its soft foliage makes it ideal for playgrounds and parks.

### HIGHLIGHTS:

- Proven success in humid areas
- Improved compact fine leaf form
- Soft to touch
- Very drought tough
- Not recommended for low lying areas
- Ideal for borders, specimen planting and mass planting.

<b>Species</b>	Lomandra longifolia
<b>Common name</b>	Strappy leaf grass
<b>Produced from</b>	Tissue Culture
<b>Tray size</b>	105E
<b>Label code</b>	51-5464
<b>Height/Width</b>	60cm / 65cm
<b>Habit</b>	Upright, lightly pendulous habit
<b>Growing pH</b>	pH 6.0 - 6.5
<b>Finishing Times</b>	In 140mm, 6-8 weeks
<b>Pests &amp; Diseases</b>	Relatively pest free & disease free
<b>Position</b>	Full sun to moderate shade
