

Purple Spray®

Purple Spray®

Sea of Purple®

Sea of Purple®

Purple Spray & Sea of Purple Hardenbergia

Hardenbergia is a climbing or prostrate Australian native. Hardenbergia are known for their fast growing nature, low maintenance requirements, and stunning flower show from late winter/early spring.

Sea of Purple®

A vigorous and low growing ground cover, Sea of Purple offers masses of flowers and an even spread of up to 3 metres. It's long trailing stems form a dense mat up to 30cm high, great for erosion control and weed suppression. Ideal as a ground cover and over retaining walls.

Purple Spray®

Purple Spray is a hardy, compact variety with manageable twining stems. Due to its upright branching habit of 1.5m, Purple Spray presents well in pots and also has a tendency to run up walls or fences and ball at the top; perfect for hiding a fence or structure with its masses of purple flowers.

Notes from the Ramm Botanicals R&D Team:

- Masses of purple pea-like flowers that cover the plant
- Thick foliage great for erosion control and weed suppression

Key Information

Height	See above
Width	See above
Tray size	105 plugs per tray
Price per plug	\$1.64 (+GST)
Label supplier	Norwood
Label bundle size	105
Label code	RAM026 & RAM027
