MANDEVILLA

## MANDEVILLA GIANT RED ROMANCE

A new addition to Ramm Mandevilla range is the bold Mandevilla Giant Red Romance. Bred by Australian company NuFlora, Giant Red Romance is Australian grown and owned, and has been bred for Australian conditions, with all royalties remaining in Australia!

Unlike any other Aloha Mandevilla, Giant Red Romance offers a massive deep crimson flower of 10cm diameter! These dramatic flowers contrast beautifully with deep green, glossy foliage, and neat climbing habit. This beautiful eye-catching plant looks great as a feature plant in a pot on the patio or grown on trellis in the garden.

Giant Red Romance is a vigorous grower that retains a neat habit. With its free flowering nature, you can expect to see the large blooms consistently during the warmer months and all year in warmer climates.

### HIGHLIGHTS:

- Abundance of large flowers up to 10cm in diameter
- Bred for Australian conditions
- Presents well in a 140mm or in a 300mm pot with trellis

<b>Species</b>	<i>Mandevilla hybrid</i>
