

# Summer Rev™

*Dianella spp 'DIANO4'* (l) Intended

STRAPPY LEAF PLANT

Cleanest, most reliable blue foliage Australian flax for tough positions.

- Upright foliage with broader, cleaner leaves than similar varieties.
- Attracts native pollinators and provides habitat for small wildlife.
- Suitable for poor heavy soils and humid climates.

**Description** Reliable grey-blue foliage plant suitable for harsh landscape conditions.

**Density** 4-6 plants per m<sup>2</sup> 2-3 per linear metre

**Height & Width** 400mm H x 400mm W

**Best Planting Time** March - November

**Uses** Mass/mixed plantings, borders, native gardens, and architectural form.

**Position** Full sun to part shade, tolerates frost and coastal conditions.

**Soil Type** Suitable for both heavy and free-draining soils

**Care** Annual trimming of old foliage, regular watering until established.

**Where it Works** NSW, QLD, VIC, SA, NT & WA
