

# True Lime™

*Lomandra longifolia* 'LM516' (D) Intended

## STRAPPY LEAF PLANTS

A reliable lime-green *Lomandra* suitable for sustainable landscapes and low-maintenance plantings.

- Retains vibrant lime foliage across a range of soil conditions.
- Tolerates drought and frost, adapting well to non-humid climates, unlike other so-called lime varieties.
- Compact form with strong roots, useful for stabilising slopes.

<b>Description</b>	True Lime™ <i>Lomandra</i> features lime-green foliage, a neat clumping habit, and dependable performance in suitable areas.
<b>Density</b>	3-5 plants per m <sup>2</sup>
<b>Height &amp; Width</b>	650 mm H × 650 mm W
<b>Flowering</b>	Produces delicate golden male flowers, adding seasonal interest and pollinator support without overwhelming landscapes.
<b>Best Planting Time</b>	Spring or autumn
<b>Uses</b>	Ideal for borders, slopes, accents, and low maintenance natural-look landscapes.
<b>Position</b>	Thrives in full sun to partial shade.
<b>Soil Type</b>	Performs well in well-drained to heavier soils.
<b>Care</b>	Prune hard every 4-5 years to maintain form and vigour.
<b>Where it Works</b>	VIC, SA, WA, Southern NSW, TAS
